SAVING MONEY & GIVING TIME...FROM JD'S MOM

"During the 111 days JD was in the hospital, my husband and I went every day. Nate woke up early before work; I spent the morning with our 1 ½ year old son before heading to the hospital in the afternoon. We would get dropped off, walk, take public transit, do anything we could to avoid parking. We still spent over \$1,000 and lost precious time. JCF would have saved us money, but it would more importantly have given us time with our little one. Now, we spend as much time as we want with our healthy kids and we will do anything to help those who can't."
