WE MAXED OUR CREDIT CARD...FROM JAKE'S MOM

"My husband travels extensively for work. While Jake was in the NICU I juggled household needs, the dog, work and of course as much time with Jake as possible. I ended up in and out of the NICU at least three to five times a day. While I knew that my credit card bill was adding up with the cost of parking, I had no idea how much until I received an **over the limit alert**. Jake was worth **maxing my credit card** for but nobody should have to incur long term debt just to visit their child in the NICU."
